

HOUSING ACTION ILLINOIS
LEADING ILLINOIS' AFFORDABLE

HOUSING MOVEMENT

2016 ANNUAL REPORT

30
years

AN IMPORTANT HOME TRUTH: **AFFORDABLE HOMES** **ADDRESS ILLINOIS'** **MOST PRESSING PROBLEMS.**

Our mission—to create, expand and protect affordable housing in Illinois—is as important and relevant today as it was 30 years ago, when Housing Action Illinois began.

Maybe even more so. Despite our significant successes over the years, finding a good, affordable home to rent or buy is still far too difficult. Federal and state funding for housing programs have not kept pace with rising costs; neither have wages. We're still dealing with the aftermath of the foreclosure crisis, we need to do more to prevent housing discrimination, and legislative gridlock is the new normal. In the midst of all this, families face impossible choices between making rent or mortgage payments and buying necessities such as food and medicine.

***More affordable, decent housing
= better communities.***

We can do better than this. Home is the foundation upon which we build our lives. It affects our access to education, our health, our ability to find employment, nurture our children, save money, and create a better future. For our families and our communities to thrive, we have to make sure that everyone has a good home.

WHERE YOU LIVE AFFECTS YOUR ENTIRE LIFE

▶ LOOKING BACK AND LOOKING AHEAD.

Dear Members, Supporters and Future Champions,

Housing Action Illinois (HAI) was founded 30 years ago in response to the critical need for affordable housing throughout the state and to create a unified voice to advocate for solutions in Springfield. Starting with 46 dedicated nonprofits, our coalition has grown into one powerful network of 160+ member organizations and the thousands of committed professionals and supporters who work for them.

Our membership runs broad and deep, encompassing housing counselors, advocates, community action agencies, homeless service providers and housing developers. Social service agencies with a mission to improve health, education and criminal justice outcomes have also joined our ranks, understanding how affordable housing influence all positive life outcomes.

Working collaboratively with and for our members, we've accomplished a great deal over the past three decades. Our early wins, such as establishing the Illinois Affordable Housing Trust Fund, continue to help communities thrive, while our more recent ones, such as helping pass state legislation that protects tenants from being forced out of their homes because their landlords have fallen into foreclosure, help us build a better future.

Today's uncertain political realities mean we must protect these past accomplishments even as we work to expand upon them.

With your help, we can do both.

Sharon Legenza
Executive Director

Wally King
Co-Chair

Mary Ellen Tamasy
Co-Chair

A 30-YEAR RECORD OF
**GETTING
RESULTS—**
*EVEN IN
CHALLENGING TIMES.*

As a leader and a partner with our members and allies, we've achieved a multitude of policy victories in Springfield and Washington that have benefited hundreds of thousands of Illinois renters, homeowners, and those who have experienced homelessness.

Achieving success year after year

1986

Recognizing the need to tackle affordable housing at the state level, 46 organizations join together and decide to campaign for a state housing trust fund.

1987

We officially incorporate as the Statewide Housing Action Coalition (SHAC) and hold our first convention.

1988

We hire our first staff person, who moves into the offices of the Lawyers' Committee for Better Housing.

1989

We coordinate two successful statewide grassroots campaigns: Housing Justice for Illinois, calling for public education on the needs of low-income households, and Campaign to Save Subsidized Housing, which protects the tenants of 14,000 assisted units from displacement.

MILESTONES

1990

Illinois Affordable Housing Trust Fund

The formation of this fund was the first win for our coalition and one of the initial reasons for our creation. Since its inception in 1990, the fund has helped to build and preserve more than 69,000 affordable units by providing grants and loans to home developers and rehabbers. It also facilitates nearly all public, private, and nonprofit affordable housing activity in Illinois.

1999

Homeless Prevention Program

We advocated vigorously to create this fund, which has prevented more than 109,000 Illinois households from homelessness. By providing modest rental and utility assistance, it serves to keep individuals and families in their existing homes and to shorten the time people experiencing homelessness stay in shelters before moving into an affordable unit.

2005

Rental Housing Support Program

We co-led the effort to create this rent subsidy program, which was established with a dedicated funding streaming of \$25 million in its first year. Each year, it assists 2,500 extremely low-income households afford their homes.

1990

After four years of work, the Illinois Affordable Trust Fund is officially established. We start providing training for developers. We also organize the Chicago Affordable Housing Coalition Housing Summit. We begin helping organizations secure Community Housing Development Organization (CHDO) status with HUD to access HOME funds for real estate development projects.

1993

We start our engagement in federal level advocacy by becoming state partner of the National Low Income Housing Coalition, a relationship that endures through today. We campaign for tenant representation on Public Housing Authority Boards, property tax exemptions for affordable housing owned by nonprofits, and minimum standards for private housing.

1995

We expand from one to three staff members. Today, Housing Action has more than ten staff members and is growing.

ORGANIZING + **ADVOCACY** = *REAL RESULTS.*

GOAL: INFLUENCING POLICYMAKERS AND EDUCATING THE PUBLIC

We advocate for policies and laws that help us make sure everyone in Illinois has a good home. This means increasing choice and stability for low-income renters, creating affordable and sustainable homeownership opportunities, and addressing the needs of people at risk of or currently experiencing homelessness. By uniting our member organizations under a policy agenda that encompasses local, state, and federal legislation, we amplify our voices in Springfield and D.C. To create healthy, thriving communities for all of us, we believe it is critical to protect renters and homeowners from housing discrimination, increase opportunities for people with disabilities, and provide pathways to financial stability for low-income households.

To achieve change, we educate and collaborate with nonprofits, policymakers, and elected officials. We share information and personal stories with the public and the media, and we mobilize our members and allies to advocate for our collective public policy agenda. We're proud of the multitude of policy victories we've secured, and we will be vigilant in protecting these advances while working toward more progress.

Statewide Independent Living Council of Illinois, Springfield **MEET ADVOCATE: Shelly Richardson**

Shelly knows first-hand the importance of policies and programs which support low-income families to find and keep a stable and affordable home. A single mother of two balancing school, work, and family duties, Shelly relied on housing choice vouchers to help pay the rent. Today, as the Executive Director at Statewide Independent Living Council of Illinois, she helps empower individuals with disabilities to find the housing and support they need to build independent lives.

An active member of HAI's Advocacy Committee, Shelly helps us to create our policy agenda, meet with legislators and educate the public about how to best help Illinois' most vulnerable households.

Achieving success year after year

1999

We co-lead the It Takes a Home to Raise a Child campaign to advocate for the Homelessness Prevention Program with the Chicago Coalition for the Homeless. After a four-year campaign, Tax Increment Financing (TIF) reform legislation requiring impact studies and compensation for displaced households is signed into law.

2000

We release the first of many reports in partnership with UIC Voorhees Center and Latinos United under the umbrella of the Illinois Assisted Housing Research and Action Project (IHARP). IHARP creates the first comprehensive computerized database of assisted housing units in Illinois.

2002

We mobilize 500+ advocates to call for statewide hearings. These lead to the creation of the Governor's Housing Task Force, an annual state housing plan, and committees on housing in the state House and Senate. We also help secure a critical \$4 million increase in the Homelessness Prevention Program budget.

OUR FIRST WIN: STILL CREATING CHANGE

Welch Woods

At Welch Woods, residents come home to 42 two- and three-bedroom units with kitchen appliances, washer and dryer hookups, and energy-efficient construction. Built eleven years ago with funds from the Illinois Affordable Housing Trust Fund—whose establishment was one of the Housing Action's first accomplishments—Welch Woods has helped meet the critical need for affordable housing in Beardstown. Housing Action member Illinois Community Action Development Corporation (ICADC) partnered with an employer to build the complex, which continues to remain occupied with a waiting list more than a decade after its creation.

HOMELESS PREVENTION PROGRAM FUNDS IN ACTION:

Escaping Abuse

Mary* had gathered the courage to leave her abusive husband, but she was a mother of two, pregnant, and didn't know how she could find or afford housing for herself and her children. She sought help at the Joliet branch of Catholic Charities, a founding member of HAI. As an agency that administers the Homeless Prevention Program, which Housing Action co-led the campaign to establish, Catholic Charities was able to help remove Mary and her children from the abusive situation and secure safe, affordable housing for them so that they could start a new life together.

**not her real name*

2003

At our request, the Governor declares an Affordable Housing Week in March, and we hold public education events across the state. We also bring together community planners, local elected officials, and others for workshops on integrating affordable housing into overall development plans for small cities.

2004

We launch the Community Housing Developers Institute, a workshop series that helps hundreds of housing developers enhance their skills and knowledge. We collaborate with the DuPage Housing Action Coalition and help found the Kane County Housing Coalition. We merge with Illinois Housing Counseling Professionals.

2005

Our name changes from SHAC to Housing Action Illinois. After a three-year campaign, the Rental Housing Support Program is established. It helps 2,500 extremely low-income households pay their rent each year.

TECHNICAL ASSISTANCE + TRAINING = *REAL RESULTS.*

GOAL: EDUCATING & SUPPORTING OUR MEMBERS

We've been providing education and training to nonprofits throughout Illinois since our inception. Over the years, we've held hundreds of workshops and trainings. We began helping Community Housing Development Organizations (CHDOs) access federal funding in the 1990s, and in the 2000s, we brought developers together to learn new skills and explore best practices at a yearly Community Housing Developers Institute.

In 2005, we began to focus specifically on providing educational trainings to Illinois housing counseling agencies to help them expand their programming and operate more efficiently. The number and types of trainings soon grew dramatically in response to the financial crisis in 2008. It was critical that counselors had the right information to help guide the many people seeking their assistance with mortgage delinquency and/or foreclosure problems.

Today, HAI is the only statewide technical assistance and training provider that serves housing counseling agencies. We're their leading source of information for complex regulations, new technology, market trends and new funding opportunities. We've developed in-house trainings as well as partnered with local and national training organizations to bring trainings directly to counselors here in Illinois.

Achieving success year after year

2005

We start providing education to housing counselors; we have since trained 1,400+ staff from 85 agencies. We collaborate with partners to expand REACH, a statewide employer assisted housing program, and found the DeKalb County Housing Coalition.

2007

With allies, we secure \$11 million for Homeless Prevention Program funding, a 120% increase. We join the Shriver Center in campaigning to pass the Safe Homes Act, which protects the rights of renters experiencing domestic violence and sexual assault.

2008

In response to the financial crisis, we increase our counselor trainings to ensure consumers facing mortgage delinquency and default have trusted, knowledgeable sources of assistance.

2009

In the culmination of the It Takes a Home to Raise a Child, we advocated to allocate \$130 million in affordable housing to be included in the state capital budget, part of which goes toward helping developmentally and physically disabled people move from institutions to 650+ units of Permanent Supportive Housing. Nearly 7,000 first-time homebuyers are also assisted.

HUD-APPROVED HOUSING COUNSELING INTERMEDIARY

We distribute funds to an affiliate network of 26 HUD-approved housing counseling agencies in Illinois, Indiana and Missouri. In addition to securing and distributing funds from HUD for this network, we help the organizations with administrative functions, assisting each agency to ensure it meets program standards and client needs. With our support and resources, these agencies are able to help more families and create more change in their communities. We first became an Intermediary in 2014; during our second year, our network doubled in size. We now manage \$700,000 in counseling funds and can pursue similar joint funding opportunities with our affiliated organizations.

In FY2015-16, HAI's affiliate network provided

**one-on-one counseling to
15,904 households**

**group counseling to
3,067 households**

SPOTLIGHT: ACCESS LIVING

A founding HAI member, Access Living has been our partner in advocating for affordable housing for people with disabilities and protecting their rights since our beginning. The Chicago-based nonprofit has benefitted from nearly every kind of housing counseling training we offer, from the basics of housing counseling to technology upgrades to assisting clients in foreclosure. They're also one of the sub-grantees in our Intermediary network.

SPOTLIGHT: MENARD COUNTY HOUSING AUTHORITY

In the last three years, we've trained all of the staff at Menard County Housing Authority, which is both a housing counseling organization and a public housing authority (they are the largest manager of rental properties in their county, managing 247 units of affordable housing). By helping them secure HUD funding, they were able to hire a full-time housing counselor. We also trained them in using a HUD-approved database to better document and measure the work they are doing with homeowners and other clients.

2010

We become an AmeriCorps VISTA program sponsor. We place VISTAs with our member organizations for service terms of a full year to help them build their capacity. Within five years, based on member demand, our network of VISTAs has doubled.

2012

We join allies in advocating for and securing \$45 million in federal funding for HUD-certified housing counseling agencies after funding had been zeroed out the year before. We successfully advocate to restore \$4.7 million to the Emergency and Transitional Housing Program in Illinois' budget, which helps 100+ nonprofits offer overnight shelters and transitional housing for the homeless.

We secure grants from the Illinois Housing Development Authority and Illinois Attorney General to provide statewide training and programmatic assistance for their Foreclosure Prevention Program and National Foreclosure Settlement (NFS) Program, respectively.

ANNUAL HOUSING MATTERS! CONFERENCE

Since our founding, Housing Action Illinois has united housing advocates and practitioners from across the state at an annual conference. Today, our *Housing Matters!* conference brings together professionals from all regions to hear from housing experts, stay abreast of the latest developments in policy, build their knowledge and skills, and network. We host workshops in five different tracks: Public Policy Advocacy, Ending Homelessness, Housing Counseling, Affordable Housing & Development, and Organizational Leadership Development.

Achieving success year after year

2013

We help pass legislation that protects tenants living in foreclosed properties from being forced out of their homes because their landlords have fallen into foreclosure.

2014

We become a HUD Housing Counseling Intermediary to distribute pass-through funds from HUD to our network of affiliate organizations. We pass legislation extending the Housing Opportunity Tax Abatement Program, which incentivizes renting to voucher holders, through 2024.

2015

After 15 years of educating, organizing, and advocating, the National Housing Trust Fund is established. Illinois received its first allocation in 2016, which will be used to build 110 homes for people who have been homeless.

We help pass a state bill creating consumer protections for senior citizens considering reverse mortgages in response to scams targeting elderly African American residents in Chicago. We also publish a report on how the state budget impasse is causing homelessness.

PROVIDING

CAPACITY BUILDING

TO OUR MEMBERS
= REAL RESULTS.

GOAL: BUILDING SUSTAINABLE CAPACITY WITH VOLUNTEER

We became an AmeriCorps VISTA program sponsor in 2010 to help our member organizations build sustainable capacity with full-time, one-year VISTAs. Within five years our program nearly doubled, going from 15 VISTAs to nearly 30.

Working with our member organizations, our VISTAs have raised \$3.5 million in cash and in-kind donations, recruited and managed thousands of volunteers, and worked on all kinds of projects to fight poverty and help communities to expand and improve their supply of affordable housing.

MEET ANAPATRICIA MARQUEZ

GREEN HOUSING AND REVITALIZATION VISTA

After her first year as a VISTA with Mid-Central Community Action (MCCA) in Bloomington, AnaPatricia signed up for another year without hesitation; she wanted to stay on to continue developing a series of educational workshops that teach homeowners and renters how to save money by being green. She has also researched green building practices and helped MCCA's office adopt more environmental practices.

Thanks to AnaPatricia's work, MCCA has been nominated by the McLean County Chamber of Commerce for a Business Excellence Award under the Green category, and Housing Action is nominating her for an AmeriCorps award for outstanding service. "I chose to serve to help those in need," says AnaPatricia. "I truly believe that one person can change the world."

2016

We publish a first ever report on the HUD-approved Client Management Systems that counseling organizations use to track clients and collect data. We begin developing trainings to fulfill unmet needs, such as a workshop for housing counselors to learn the fundamentals of rental counseling.

We advocate to extend the Comprehensive Housing Planning Act through 2026 in partnership with the Metropolitan Planning Council. We work to pass the stopgap state budget, which included \$77.4 million for programs to create affordable housing and end homelessness and rejected previously proposed cuts.

We continue to mobilize supporters to call for an end to Illinois' state budget impasse. We keep our housing advocates and practitioners informed as the political landscape shifts around us.

Tomorrow

We live in an Illinois where everyone has a place to call home that is safe, affordable, accessible, and stable. Our communities thrive together.

160+

MEMBERS STRONG

Our members are non-profits, individuals and corporations committed to protecting and expanding the availability of affordable housing in Illinois. Find out how you can become a housing champion, an ally, a member organization, or part of our network.
